SPRING 2019

WHILE THIS IS SIMPLY A NEW edition of *California Home+Design* to most, to our team it represents a hallmark of achievement, marking our 25th year in production. In a time when print media is dwindling, we are honored to share iconic design that hopefully captivates your attention longer than an Instagram story. Yes, to some this medium may seem archaic; however, through this vehicle we are given the opportunity to make a difference in the design community. We not only get to elevate and celebrate the best of our industry, we get to serve as dot connectors between artists, brands, designers, architects, manufacturers and developers, creating a more productive ecosystem.

To commemorate our big anniversary, we recently launched the new and improved californiahomedesign.com featuring more dynamic content than ever before! We are always on the hunt for new products and projects, so do not be shy about sending us your recent best.

Spring also symbolizes an opportunity to make positive change. From food to fitness and creating a more meditative state, my focus in 2019 is to design a healthier home for myself and my family. Here, I shred's a few must-haves that will breathe new life into my everyday routine.

—LINDSEY SHOOK

Editorial Director of *California Home+Design*

MY HEALTHY HOME FINDS:

FOR EXERCISE:
This interactive gym enables you to train at home without taking up extra square footage.
Mirror; mirror.co

FOR DIET:
Made in LA, the Smart Grill by Lynx is the world's first Wi-Fi-enabled, voice-activated grill that actually cooks food on command.
36" Smart Grill by Lynx; lynxgrills.com

FOR MEDITATING:
Inspired by the zabuton and zafu Zen meditation practices, this pillow set creates a more comfortable zone for finding peace.
