KITCHEN OF THE MONTH

Mastering the Outdoor Kitchen

Don't miss a minute of your backyard bash to run inside for rosé or sorbet. Turn your grill area into a full-on alfresco kitchen, so you can stay at the party—chilled cocktail in hand.

BEVERAGE STATION

Thanks to back-bar features like a slide-away cutting board, an insulated ice bin, and a stainless steel prep sink, the Lynx Built-In CocktailPro Station will have you whipping up drinks like a professional mixologist. \$2,149. lynxgrills.com

DISHWASHER

It has all the cleaning capabilities of a conventional model, but Asko's Outdoor Dishwasher also withstands the elements—and it can

remain outside all winter long. A special setting handles hard-to-clean pots and pans. \$3,155. askona.com

ICE MAKER

Not fun: Lugging five-pound bags of melting ice out to the party. Fun: True Residential's Clear Ice Machine can churn out 70 pounds of cubes in just 24 hours. \$3,700. true-residential.com

HEATER

Extend your open-air season with the Falò Evo patio heater. Powered by either propane

or natural gas, this seven-foot tower has a visible column of flame and optional wheels for easy mobility. Choose from five finishes—or commission a custom color. From \$2,200. ferraraflame.com

Not Shown

WARMING DRAWER Can't time every meal perfectly? The Outdoor Warming Drawer from Wolf maintains a temperature of 80 to 200 degrees, so your grilled side dishes stay

hot while you continue cooking. \$1,975. subzero-wolf.com

REFRIGERATOR

Keep grab-and-go drinks for the kids separate from your famous macaroni salad with the two-compartment DCS Outdoor Refrigerator Drawers. \$3,799. desappliances.com

WINE RESERVE

Perlick's Signature Series Dual-Zone Outdoor Wine Reserve is part fridge, part wine cellar: Program the unit to two different

temperatures to chill and store both red and white wines—a total of 32 bottles—in the same handy spot. \$4,069. perlick.com

FREEZER

The two-inch-thick insulated walls of Kalamazoo's Outdoor Freezer mean foods inside stay frozen, even if the thermometer outside climbs into scorching triple digits. Great for chilling martini glasses and beer mugs, too. \$3,885. kalamazoo-gourmet.com

Time-saver:
